

Test Automation Engineer – Krzysztof Sadowy

EDUCATION

Date	School name/field of study
2007 – 2011	State School of Higher Professional Education in Elbląg Computer Science – Bachelor's Degree

COMPETENCE

- **Python:** Extensive use for developing automation scripts, data processing, and integrating with CI/CD pipelines (Jenkins);
- **C#:** Designing, developing, and maintaining in-house automation frameworks for functional, regression, and integration testing;
- **Java:** Utilized for test automation tasks and integration within multi-technology environments;
- **Bash, Perl:** Writing scripts for automation of repetitive system tasks, performance testing support, and log processing;
- **Robot Framework:** Designing and executing functional, regression, and performance test cases, integrating with Jenkins for continuous testing;
- **Cypress, Selenium:** UI and API automation testing, regression suites, and smoke tests;
- **AWS:** Creating and maintaining test environments in cloud infrastructure;
- **SQL (Oracle SQL, PostgreSQL):** Writing complex queries, performing data validation, and ensuring data integrity in ETL and database testing;
- **JMeter:** Performance and load testing;
- **Big Data Tools:** Exposure to large datasets in test scenarios, including validation and transformation checks;
- **Jenkins:** Setting up and maintaining CI/CD pipelines for automated testing;
- **Windows, Linux, Unix:** Managing and configuring test environments across multiple platforms;
- **Jira, Confluence:** Agile project tracking and documentation;
- **Scrum, Agile:** Active participation in iterative development cycles, close collaboration with cross-functional teams.

LANGUAGES

- English – C1
- Polish – native

CERTIFICATES

- ISTQB® Certified Tester, Foundation Level
- ISTQB® Certified Tester, Advanced Level – Test Analyst

EXPERIENCE

04.2023 – currently

Company: Freelance Project

Position: Senior Test Automation Engineer

Tasks and responsibilities:

- Designed, implemented, and tested web applications tailored for small customer projects, focusing on custom database solutions.
- Collaborated with clients to define requirements and ensure the application meets user needs.
- Performed extensive testing to ensure high-quality performance, functionality, and security.

Technologies: C#

02.2022 – 03.2023

Company: SII

Position: Automation Tester

Tasks and responsibilities:

- Maintaining and expanding in-house automation c# framework.
- Creating automated tests.
- Utilized SQL to query databases for validating data integrity, verifying results, and ensuring the correctness of automated tests.
- Creating and maintaining test environments based on standard template virtual machines and AWS.

Technologies: C#, Selenium, AWS, SQL, Git, Jira

04.2020 – 01.2022

Company: Postdata S.A.

Position: Automation Tester

Tasks and responsibilities:

- Creating test scenarios for automation.
- Creating automated tests based on in-house automation c# framework.

Technologies: C#, Selenium, AWS, SQL, Git, Jira

07.2017 – 03.2020

Company: Nordea Bank

Position: Senior IT Infrastructure Specialist

Tasks and responsibilities:

- Running and maintenance of daily business critical flows on pre-production environment.
- Building and expanding a pre-production test automation suite.
- Managing test servers and virtual environments.
- Providing post-deployment metrics for implementing application changes to production gate.
- Daily defect tracking and retesting.

Technologies: Python, Jenkins, Git, Linux

06.2016 – 03.2017

Company: Acxiom Global Service Center Polska sp. z o.o.

Position: Senior Automation Tester

Tasks and responsibilities:

- Designing, implementing and executing automated functional, regression and performance tests in Robot Framework with Jenkins.
- Utilized SQL to query databases for validating data integrity, verifying results, and ensuring the correctness of automated tests.
- Functional requirements analysis and project documentation reviewing.
- Test planning and estimating.
- Result analysis and reporting, defect tracking and retesting.

Technologies: Python, Robot Framework, C#, Jenkins, SQL, JMeter, Git, Jira

03.2014 – 05.2016

Company: Misys Global Ltd.

Position: QA Engineer

Tasks and responsibilities:

- Maintenance and enhancement of automated test tools framework (using bash/csh + python and perl).
- Performance testing and performance test automation.
- Preparing technical test environments with Sybase dataserver.
- Result analysis and reporting.
- Defect tracking and retesting.

Technologies: Python, Robot Framework, SQL, Bash, Linux, Git, Jira

09.2010 – 02.2014

Company: Acxiom Global Service Center Polska sp. z o.o.

Position: Automation Tester

Tasks and responsibilities:

- Functional requirements analysis and project documentation reviewing.
- Writing and executing manual test cases.
- Designing, implementing and executing automated tests and performance test scripts in C# and Selenium.
- Result analysis and reporting, defect tracking and retesting.
- Regression testing.

Technologies: C#, Selenium, SQL, Bash, Linux, Git, Jira

Wyrażam zgodę na przetwarzanie przez B2B.net S.A. moich danych osobowych zawartych w przekazanych przeze mnie dokumentach w celu związanym z moim udziałem w obecnym procesie rekrutacyjnym.

Jednocześnie przyjmuję do wiadomości oraz oświadczam, że zrozumiałam/em, że administratorem moich danych osobowych zebranych na podstawie niniejszej zgody jest B2B.net S.A. z siedzibą w Warszawie, Al. Jerozolimskie 180, 02-486 Warszawa. Dane będą przetwarzane zgodnie z postanowieniami Rozporządzenia Parlamentu Europejskiego i Rady (UE) 2016/679 z dnia 27 kwietnia 2016 r. w sprawie ochrony osób fizycznych w związku z przetwarzaniem danych osobowych i w sprawie swobodnego przepływu takich danych (dalej: RODO). Dane podane zostały przeze mnie dobrowolnie i w każdej chwili przysługuje mi prawo wycofania zgody na przetwarzanie danych poprzez przesłanie informacji na adres: rekrutacja@b2bnetwork.pl. Podanie danych jest niezbędne do realizacji ww. celu, dlatego żądanie ich usunięcia oznacza rezygnację z dalszego udziału w procesie rekrutacji. Przysługuje mi również w każdym czasie prawo dostępu do treści moich danych i ich poprawiania. Jestem ponadto świadoma/y, że odbiorcami moich danych osobowych mogą być wyłącznie podmioty uprawnione na podstawie przepisów prawa, jak również upoważnione na podstawie zawartych przez B2B.net S.A. umów, w szczególności z klientami.
