

## Personal Data

Bizzi Gonçalves de Melo, Victor Antonio  
28/June/1990, São Paulo/SP – Brazil  
Nationality: Italian/Brazilian

victorbizzimelo@gmail.com

+55 11 99799-4333

Rua Bertelli, 45 – Vila Medeiros – São Paulo/SP – Brazil

- 03 years experience in Software QA
- Experience in Test Cases / Test Scenarios writing, planning and managing
- Manual Testing: UI/UX, APIs and Database
- I am improving my skills in the Agile Methods
- Certificates: ISTQB-CTFL (17-CTFL-07758-BR), Agile Scrum Foundation (Exin: 6022543.20670660), Scrum Fundamentals Certified (SixSigma: 608407), Yellow Belt (SixSigma: 588473) and White Belt (SixSigma: C6uwGvZst)

## Education

01/2015 – 12/2016 Univerdade Paulista (São Paulo/SP – Brazil)  
Diplom: System Analysis / System Development Technology

## Professional Experience

Since 05/2019

### **QA Analyst** for Fraud Prevention System (E-Commerce)

I work in two different projects:

#### **Since 08/2019**

- Responsible for Quality Assurance and Quality Control
- Functional Tests: Integration, Regression, Double Check, Exploratory, API (Postman)
- Database Tests: Microsoft SQL Server und SQL Profiler (for events monitoring - example: procedures)
- Test Cases / Test Scenarios and Tasks: writing, planning and managing (Azure DevOps)
- Tests Results: controlling, documenting
- Automated Tests (APIs): .Net (Beginner – currently I am doing Technical Support in Scripts (Debug, settings, problem solving and basic TestCases developing in VisualStudio))
- Non-Functional Tests: Load and Stress - Scripts/Robot execution and test results documenting
- XML and REST – Json archive editing

#### **05/2019 - 08/2019**

- Responsible for Quality Assurance and Quality Control
- Functional Tests: Integration, Regression, Double Check, Exploratory, UI/UX validating
- Test Cases / Test Scenarios writing, planning and managing (Azure DevOps)

- Tests Results: controlling, documenting
- Tests in Web Application and in Database (Microsoft SQL Server and MongoDB)

05/2018 – 12/2018

#### **QA Analyst** for ERP System

Responsible for tests in the modules: HR and Payroll

- Functional Tests (Desktop and Web Application), Database Integration (PL / SQL), regression, UI / UX validating
- Test Cases / Test Scenarios writing, planning and managing (Azure DevOps)
- Tests Results: documenting (Azure DevOps)

06/2017 – 01/2018

#### **QA Analyst** for POS (Point Of Sale) System

Fixed-Term Employment Contract

- Functional Tests: UI/UX validating, integration, regression, BDD
- Non-Functional (Load und Stress): Scripts executing
- Tests in Desktop (Linux/Windows) and Web Application
- TestCases, Bugs/Issues and Tests Results managing (Jira)

01/2017 – 06/2017

#### **Cell Phone Software Tester**

Fixed-Term Employment Contract

- TestCases executing
- Mobiles preparation for tests execution
- Applications compatibility testing (Native/Hybrid)
- Android Upgrades and Downgrades

## **Knowledge and Skills**

Levels of knowledge:

+ Basic knowledge, ++ Good knowledge, +++ Advanced knowledge

| Area                | Sub Area                      | Level | Experience in years |
|---------------------|-------------------------------|-------|---------------------|
| Collaboration Tools | Azure DevOps                  | ++    | 2                   |
|                     | Jira                          | +     | 0.5                 |
|                     | HP ALM                        | +     | 0.5                 |
|                     | TestLink                      | +     | 0.5                 |
| Testing Tools       | Selenium WebDriver            | ++    | 0.5                 |
|                     | Postman                       | ++    | 1.0                 |
| Software Testing    | TestCases elaboration (UI/UX) | ++    | 1.5                 |
|                     | TestCases elaboration (API)   | +     | 1.0                 |
|                     | Tests planning                | ++    | 2.5                 |
|                     | Manual Tests Execution        | ++    | 3                   |
|                     | Automated Tests Execution     | ++    | 1                   |
|                     | Tests results reporting       | ++    | 3                   |
