CAREER OBJECTIVE

Software Engineer in Test with 1+ years of experience organizing the manual testing, preparing testing reports and maintaining the utmost confidentiality. Looking to leverage my wealth of knowledge and experience into a role as Software Engineer in Test.

EXPERIENCE

Meegaan Technologies, Noida— *Software Engineer in Test*
JULY 2019 - PRESENT

Perform system, unit, acceptance, regression, load and functional/performance testing on mobile & web applications using manual testing methods. Validate, Verify, Communicate and resolve software issues through careful, thoroughly documented testing to maximize return on investment(ROI).

Contributions:

- **Identify, documented and reported bugs**, errors, interoperability flaws and other issues within proprietary software applications developed for ShearShare(Client).
- **Worked collaboratively with QA, development and business** groups to complete comprehensive testing on major new releases.
- **Regression functional test cases** which freed up the time to run more complex manual cases to uncover complex issues and thereby improving the efficiency and productivity of the team.

EDUCATION

University of Jammu, J&K— *Masters in Computer Science*
July 2016 - October 2019
